They will need to read 28-29 pages a day to keep up this pace goal.

They will need to read 28.5 pages a day to keep up this pace goal.

Card #15

Answer Sheet and Key

1.	2.	3.	4.	5.
6.	7.	8.	9.	10.
11.	12.	13.	14.	15.

1.	2.	3.	4.	5.
150.4km in total was travelled.	23.6km left to run.	When added together the original piece of wood measured 14.43cm.	Penny is correct. 6.02m is the total height of the friends stacked on top of each other.	Zero is correct.
6.	7.	8.	9.	10.
Navi is correct. $15.03 in change is given from $50.	Chuck is correct. $1305.35 is left in his account.	Lea is correct. Bennett spent $51.94 on the spa services.	Tracy is correct. The total comes to $43.29. Charlie will have money left over.	6.8 x 4= 27.2 ounces
11.	12.	13.	14.	15.
8 x 1.5= 12 feet tall.	5.99/ 12= .4991667 rounding to the nearest hundredth makes the cost .50 cents.	$2.68 x 6 bags= $16.08 on the chips before tax.	4 members multiplied by 3.6km each is equal to 14.4km.	128.5 / 4.5 = 28.5 repeating decimal giving an average of 28.5 pages/ day
